SALES

Premier Hire offers a full range of sales items including:-

- Personal Protective Equipment
- Drill Bits
- Gas
- Diamond Blades and Diamond Products
- Sanding Sheets and Accessories
- New Machine Sales

All at very competitive prices.

SERVICE AND REPAIR including WHILE-U-WAIT SERVICE

If your own tools and equipment require servicing or repair, our qualified technicians will give you a free estimate including parts and labour costs. All electrical items will be PAT tested and all new parts guaranteed.

Work will only be carried out with your authorisation. Once the repair work is started we will keep you informed of the progress and an estimated completion date.

Also, while-u-wait service and repair on selected tools and equipment only.

PAT TESTING

WE WILL PAT TEST ANY ELECTRICAL TOOL AT A COST OF £4.00 PER ITEM

Pat testing or portable appliance testing is an important part of any health & safety policy. This site is intended as a guide to both the legal implications and to the technical requirements. The Health & Safety Executive states that 25% of all reportable electrical accidents involve portable appliances. The Electricity at Work Regulations place a legal

responsibility on employers, employees and self-employed persons to comply with the provisions of the regulations and take reasonably practicable steps to ensure that no danger results from the use of such equipment. This in effect requires the implementation of a systematic and regular program of maintenance, inspection and testing.
